does YOUR bank pay DAILY interest ?

If not, you may be losing money. Because some banks only compound interest on Passbook Savings quarterly or semi-annually. Even worse, if you withdraw funds before the interest date, you don't receive one penny's interest on the money you withdraw. But at Fidelity National Bank, we compound daily ... from the day of deposit to the day of withdrawal. And daily interest gives you an effective annual yield of 4.6% instead of 4.5%. Check out your bank. Why earn less when you could save with Fidelity?
